PREFACE

G. K. Hall *Bibliographic Guides* are comprehensive annual subject bibliographies. They bring together publications cataloged by The Research Libraries of The New York Public Library and the Library of Congress for thorough subject coverage. Included are works in all languages and all forms—non-book materials as well as books and serials.

Bibliographic Guides provide complete LC cataloging information for each title, as well as ISBN and identification of NYPL holdings. Access is by main entry (personal author, corporate body, names of conference, etc.), added entries (co-authors, editors, compilers, etc.), titles, series titles, and subject headings. All entries are integrated into one alphabetical sequence. Full bibliographic information, including tracings, is given in the main entry, with abbreviated or condensed citations for secondary entries. Subject headings appear in capital letters in bold-face type. Cataloging follows the *Anglo-American Cataloging Rules*. Following is a sample entry with full bibliographic information:

INTRODUCTION

The *Bibliographic Guide to Music* lists publications cataloged during the past year by The Research Libraries of The New York Public Library with additional entries from Library of Congress MARC tapes. It also serves as an annual supplement to the *Dictionary Catalog of the Music Collection,* The Research Libraries of The New York Public Library (G. K. Hall, 1964; *Cumulative Supplement,* 1973).

The Music Division's holdings cover virtually all musical subjects, and the scores represent the broadest spectrum of musical style and history. Particular strengths of the Division's collections are folk song, eighteenth- and nineteenth-century librettos, full scores of operas, complete works, historical editions, Beethoven, Americana, periodicals, vocal music, literature on the voice, programs, record catalogs, and manuscripts. All titles from the Music Division designated by the literary form code, *Music,* are included in this *Guide*.

Materials selected from LC MARC tapes cover such areas as literature of music (bibliography, history and criticism, philosophy of music), and music instruction and study (composition, orchestration, singing and voice culture). Selection of titles from MARC tapes is based on the LC classification *M*.
